Subject: SIG 1003(g) General Beadle Elementary School Amendment

The principal of General Beadle Elementary School has discussed with the Director of Federal Programs and Grants and our Grants Accountant to review expenditures for our SIG accounts. We are requesting making an amendment to the budget to include moving the dollars in:

- Salaries
- Benefits

We propose moving \$11,000 dollars from salaries and benefits into contractual. Discovery summer school program will now be hiring and paying the summer school teachers directly and billing the school district. Therefore, we are requesting the amount budgeted for summer school salaries to be shifted to contractual because of the change in the process.

The amendment to the SIG 1003(g) grant allows us to continue our focus of the original proposal.

*Summer school programming to be implemented during the existing Discovery Summer school program with four additional certified staff members.*

The partnership with the Discovery program is highly beneficial to the academic support of our students as well as providing the family support we highly value at General Beadle. The Discovery program is located in our building as one of our afterschool programs. Over 100 of our students utilize this program throughout the school year. The Discovery program continues the academic support into the summer months and runs June 4-July 27 in our building. The certified teachers will be teaching the students with a focus on math and reading. The summer program also supports technology, science, and hands-on activities. Thank you for your consideration.

Sincerely,

A handwritten signature in black ink that reads "Cary Davis". The signature is written in a cursive, flowing style.

Cary Davis
